

BAGS DRYER MOD. DR-1

CHARACTERISTICS

- Construction in stainless steel
- Continuous operation
- Air-blade drying system at a room temperature
- Possibility of disconnecting the air turbine
- Height adjustable feet to adapt to any automatic machine
- Possibility of conveyor belt with adjustable speed
- Photocell detection
- Support videos for use and maintenance in www.zeremat.es

TECHNICAL DATA

External dimensions	1200 x 800 x 1400 mm
Chamber dimensions	600 x 250 mm (width x height)
Electrical connection	380V 3F (220V)
Pneumatic connection	6 bar
Power	8 kW

OPTIONS

- Roller inclined output plate
